Are you walking the tightrope with your business?

We're accountants! - so you know that we can do an audit and fill out a tax return, BUT, we want you to know there's much more we can do for you than just that! We want to help you achieve the goals and aspirations you have for yourself and your business.

Don't worry - you'll be in *safe hands* with us.

Owning and managing a business these days can require the skills of a highly accomplished circus performer. Are you?

The Tightrope-walker

It can be a precarious feat, having your own business. We know that many owner-managers feel isolated. We aim to be your partner in business, by making sure our support and expertise lessens the burden of running your business, and minimises any risks involved.

We'll provide you with the safety net!

We'll help you go forward, one step at a time, with the use of good management accounting and strategic planning, and we'll make sure your books balance too of course

Getting across from one end of the tightrope to the other requires great *skill* and *balance*. It's the same in business.

The *skill* is to get the best advice, and the *balance* is to make sure you still get a life!

The Juggler

Are you trying to keep all the balls in the air but dropping a few on the way?

We'll provide an extra pair of hands, so you can concentrate on what you're best at - *running your business*..

"We've always found Tildesley & Tonks extremely supportive in helping us tackle any problems we come up against - we just pick up the phone and they're there"
Geoff Dench Regional Director - Ashton Home Care Ltd

The Ringmaster

The show must go on and it may seem like its pretty much all down to you. If a business is totally dependant on the owner for a successful performance, it will never achieve its real value when it's time to sell up.

The average business owner performs most of the star turns himself which means he really struggles to have time for a life outside the ring. We can help you systemise your business to make sure the show will always go on even if you're not there!

Why did you go into business in the first place?

Probably to make more money and enjoy a better lifestyle, with more choices.

"Tildesley & Tonks give us excellent service & invaluable advice. They are a huge asset to our continually growing business."

Debbie Smith - Financial Director Xtralite (Rooflights) Ltd.

We like to put our clients into the spotlight and make sure they plan well for the future.

What do they think their business is worth now and when do they want to retire or sell?

What is their personal wealth today and what will it be in 5 years time?

Using the latest strategic planning tools we help them plan towards achieving their goals. We make sure that their business is going in the right direction, takes advantage of any tax saving opportunities, and is financially attractive when it's time to sell.

"Tildesley & Tonks are completely in tune with our thinking"
David Westwood - Director A-STAT office Technology Ltd
